Sound Designer · Technical Sound Designer

TOOLS & SKILLS

Audio: Sound design, gameplay SFX, recording, audio editing, post-production, mixing, dialogue and voice-over implementation, adaptive music

Game Audio / Implementation: Wwise, Unreal Engine 5, Unity, FMOD, C++, Blueprints, C#, RTPCs, States, Switches, Events, spatial audio, Rooms and Portals, occlusion, reverb, interactive mix systems

DAWs / Technical Tools: Reaper, Pro Tools, Ableton Live, Max/MSP, Git/GitHub, technical documentation, in-engine testing and debugging

SELECTED GAME AUDIO EXPERIENCE

Unreal Engine / Wwise Technical Audio Demo

Toronto, ON

Technical Sound Designer

04/2026 - 05/2026

- Designed, implemented, and iterated responsive gameplay and environmental audio in Unreal Engine 5 using Wwise, C++, and Blueprints
- Built physical-material footstep switching, animation-notify sound-event integration, RTPC-driven servo and movement layers, jetpack state logic, and spatialized ambient emitters
- Implemented Wwise Rooms and Portals, door-linked occlusion, and reverb behaviour; tested and debugged Events, Switches, RTPCs, and spatial-audio behaviour in engine and middleware

Dust Bunny

Toronto, ON

Sound Designer / Audio Lead & Project Manager

01/2026 - 04/2026

- Designed, edited, and implemented gameplay SFX, environmental audio, UI feedback, adaptive music, spatial ambience, and interactive mix behaviour for a 3D narrative-platformer in Unity and Wwise
- Built physics-based RTPC systems, state-driven music transitions, moving and randomized ambient emitters, room-and-portal audio, and player-state and UI-linked mix ducking
- Created and tested audio responses for player movement, collisions, progression, collectibles, puzzles, environmental changes, and narrative moments
- Led audio direction and project coordination across an 11-person team, setting priorities, resolving implementation issues, aligning audio with player feedback and visual direction, and preparing the final build
- Third Place, Achievement in Audio - Level Up Showcase 2026

Soothsayer

Toronto, ON

Sound Designer / Audio Lead

09/2025 - 12/2025

- Designed, recorded, edited, and implemented sound effects, music, and branching voice-over for a tarot-based narrative card game in Unity
- Built a branching dialogue system using custom C# scripts and indexed Google Sheets data to map and trigger voice clips by narrative state
- Developed scripts for music, sound effects, and dynamic playback; organized assets and tested in-game dialogue behaviour

Additional Experience

Rooms Coffee / Bevy Café | Founder / Operator

Toronto, ON | 08/2019 - 11/2023

- Grew Rooms Coffee from one café to six locations; led teams, vendors, documentation, operations, and produced large-scale events and activations with Google, Sony Music Canada, and KFC Canada

Uncle Tetsu's Japanese Cheesecake | Director / Global Operations Manager

Toronto, ON | 05/2015 - 11/2021

- Supported international openings and developed operating and training documentation that created repeatable workflows

Education

University of Toronto - Faculty of Music | Bachelor of Music

April 2026
